

Theory of Change

Working document

Oct 2021

Wiki In Africa's mission is to facilitate global access for all to open knowledge that reflects and represents the diverse cultures, peoples, biodiversities, and histories of the African continent and other previously marginalized and disenfranchised communities with the same depth and breadth as other knowledges.

Goal 1:
To provide multiple ways and to reduce the barriers for individuals and groups to contribute their knowledge to the open movement and thereby reduce knowledge gaps and redress biases.
